## DETAILED ACTION

### *Drawings*

1. The drawings are objected to because **34** appears twice in figure 3. It appears that the pivot post should be labeled **33**. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### *Specification*

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. The disclosure is objected to because of the following informalities: the embodiment of FIG 3 is not clearly explained in paragraph 19 of the specification.

Furthermore, it is unclear from FIG 3 how components **31** and **32** move relative to one another.

Appropriate correction is required.

### *Claim Rejections - 35 USC § 102*

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 2859

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-9 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Humphrey.

6. Humphrey discloses the invention as claimed where: the three components b establish an accurate spatial relationship on a circle and m is a fourth point used to indicate the center of a circle. The relationship of the points can also be adjusted.

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
